Boris Marinov Marinov

Junior React Developer

Sofia City, BG

About me

I take seriously the tasks I am given. I have a positive outlook and I am always ready to acquire new skills. I believe that by making the necessary efforts every goal can be achieved. My good analytical and troubleshooting skills help me a lot at work. I am also a proactive, result-oriented and client-focused team player. I like to pay attention to details during the working process.
I work quite effectively as part of a team but also enjoy having enough individual space to show creativity. I am a quick learner, who loves to share knowledge, loyal, dedicated and trust-worthy. I have a sociable and adaptive personality

WHY SHOUD YOU HIRE ME?

I am highly motivated, ambitious and with good problem-solving skills. I enjoy being challenged and working hard to achieve the goals set. I will dedicate myself to the assigned projects. I learn fast and always make sure that I perform to the best of my abilities and with the aim of surpassing expectations.
I do not change my job often, which is a prerequisite for choosing me (last job position -10 years)
